

PROMYS Europe

Program in Mathematics for Young Scientists

A partnership of PROMYS, Wadham College and the Mathematical Institute
at the University of Oxford, and the Clay Mathematics Institute

12 July – 22 August 2026 at The University of Oxford

Applications open in January • visit • www.promys-europe.org

**Six weeks of challenging and stimulating mathematical exploration
for mathematically ambitious school students aged 16+
from across Europe**

Selection is needs-blind and based on merit alone. Financial aid is available for those who need it

PROMYS Europe adheres to the principle that no one should be unable to attend because of financial need

What students had to say, after PROMYS Europe 2025

Absolutely brilliant! • seeing people in love with what I am also passionate about is extremely motivating • I feel like a superhero for maths now • big maths time • by far the best camp I've ever been to • what I really loved was being part of the community • counsellors were very dedicated and supportive • lots of fun/funny mathematical conversations • extraordinary, life-changing • wish it was longer! • magical, addictive, unforgettable

An environment in which young mathematicians can immerse themselves in serious mathematical problems over several weeks, without distraction – Prof Sir Andrew Wiles, PROMYS Europe Patron
